

ATTENTION!

On Friday, June 23, 2017, the President of Ukraine signed the Law On Amendments to Certain Legislative Acts of Ukraine Concerning Elimination of Barriers to Attraction of Foreign Investments. It enters into force on September 24, 2017. During this time, central executive bodies should explain in their decisions how exactly this law will be applied. This law generally changes the procedure for obtaining a work permit and a residence permit. Currently, both government and employers employing foreigners are waiting, as there are many questions, on which no enactments can answer, and there is no practice of applying the law.
